

Sew Many Creations Cork Tassels

Supplies:

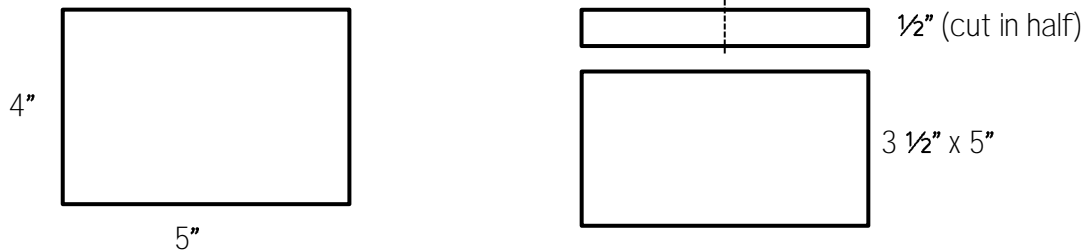

4" x 5" scrap of cork

(1) 1/2" swivel hook

Strong glue such as E6000

Marking tool, ruler, scissors and/or rotary cutter

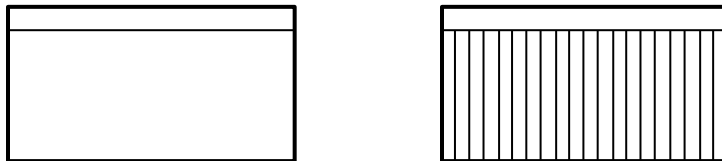

Begin by cutting a 1/2" strip off one of the long sides. Cut strip in half (2 1/2" x 1/2")

Place swivel hook through one of the 2 1/2" x 1/2" strips and glue ends. The leftover 2 1/2" x 1/2" strip can be tossed or saved for another project.

Next, draw a line 3/4" down from one of the long edges of the 3 1/2" x 5" strip on the wrong side. Cut fringe approximately 1/8" - 1/4" wide from the bottom edge up to the line.

Glue the swivel hook to the wrong side of the fringed piece, aligning it with the edge and the drawn line. Add glue and roll to end. Use a binding clip to hold in place until glue sets - about 10-15 minutes.
